PORTFOLIO

github.com/Daddycode11
[J&J Tech Solutions](#)

TECH STACK

PHP / Laravel 11
Python / Django
JavaScript / HTML / CSS
MySQL / PostgreSQL
REST API Development
Bootstrap / Tailwind CSS
Git / GitHub
Squarespace Customization
Next.js (Basic–Intermediate)
Supabase (Database & Backend-as-a-Service)
TypeScript (Basic)
OpenAI API Integration (AI Features & Automation)

DEVOPS & TOOLS

Docker / Docker Compose
Nginx / Unicorn
Linux Server (VPS)
Shared Hosting Deployment
SSH / CLI Management
Domain & Hosting Configuration
CI/CD Awareness (Basic Deployment Workflow)

OTHER SKILLS

UI / UX Design
Graphic Design (Canva / Photoshop concepts)
Microsoft Office
Computer Troubleshooting
Technical Support
API Testing (Postman)
Automation Scripts (Basic)

EDUCATION

BS Information Technology
Occidental Mindoro State College
2015 – 2019

PROFESSIONAL SUMMARY

Full-stack web developer with 3+ years of experience designing, developing, and deploying production-ready systems for government and organizational use. Specializing in Laravel and Django, with strong experience in both shared hosting and VPS deployment environments.

Experienced in building scalable systems including health information systems, POS platforms, and municipal websites. Strong ability to work independently as a solo developer handling architecture, backend, frontend, database, and deployment.

Familiar with modern web development workflows including API integration, containerized deployments, and cloud-based architectures. Currently expanding into modern full-stack ecosystems such as **Next.js, Supabase, and AI-powered applications.**

KEY PROJECTS

RHU Health Information System

Laravel 11 • MySQL • Spatie Permissions • Chart.js • DomPDF

Solo-built comprehensive web system for the Municipal Rural Health Unit of Calintaan. Features 10+ modules: online appointments, electronic medical records, pharmacy inventory, vaccine tracking, maternal care, child health, TB-DOTS monitoring, dengue surveillance, and DOH reporting dashboards. Implements role-based access for 6 user roles with Spatie permissions, PDF/Excel report generation, and optional SMS notifications.

TourPOS – Tourism & POS System

Laravel 11 • PHP 8.2 • MySQL • REST API

Full-featured tourism management platform with integrated point-of-sale, product catalog, and inventory tracking. Deployed to production on shared hosting (LiteSpeed), resolving .htaccess incompatibilities, foreign key constraint management, and no-SSH deployment constraints through manual SQL imports and vendor uploads.

MedTrack – Medical Records System

Django • Docker • PostgreSQL • Nginx • Unicorn

Dockerized medical records system deployed on Hostinger VPS. Managed the full DevOps pipeline: Docker Compose orchestration, Nginx reverse proxy, Unicorn WSGI configuration, PostgreSQL database setup, and environment management. Resolved complex deployment issues including dependency conflicts and container volume recovery.

LGU Calintaan Tourism Website

Laravel • Bootstrap • MySQL

Official tourism website for LGU Calintaan showcasing local attractions, events, and announcements. Improved the municipality's online visibility and public engagement through modern, responsive web design.

WORK EXPERIENCE

Web Developer / Digital Designer

LGU Calintaan – Tourism Office Feb 2024 – Present

- Developed and deployed the official tourism website using Laravel, improving online visibility of municipal tourism services.
- Designed and implemented responsive UI/UX across desktop and mobile platforms.
- Managed content updates, hosting configuration, and ongoing website maintenance.

Construction Technical Staff

GAWIN PH Aug 2021 – Apr 2022

- Assisted in technical site operations, documentation, and project coordination.

Office Staff / Game Developer

MENRO – LGU Calintaan

Mar 2021 – Jul 2021

- Developed an educational environmental awareness game using 2D game development concepts.
- Provided digital documentation and technical support for office operations.

Graphic Designer

MPDO – LGU Calintaan

Jul 2020 – Mar 2021

- Created visual materials, infographics, reports, and presentations for government use.

KEY ACHIEVEMENTS

- Solo-built a 10+ module Health Information System used in municipal healthcare operations
- Successfully deployed production systems across shared hosting, VPS, and Docker environments
- Solved complex hosting limitations (no SSH, manual deployment workflows, database migration issues)
- Improved municipal tourism visibility through a modern responsive website
- Delivered multiple end-to-end systems from design → development → deployment without external developer support.

CERTIFICATION

I hereby certify that the above information is true and correct to the best of my knowledge and belief.
